TERMS—Two DOLLARS per annum, IN ADVANCE; otherwise Two DOLLARS and FIFTY CENTS will be charged. No paper discontinued until all arrearages are settled.

U.S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EXEMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States Notes or National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period *not less than ten nor more than forty years* from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the 1st days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accured interest in coin—(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or received them drawing interest from the date of subscription and deposit.—As these Bonds are

EXEMPT FROM MUNICIPAL OR STATE TAXATION, their value is increased form one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they

☞ OVER EIGHT PER CENT INTEREST

is currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payments while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from $50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be ascertained from the fact that the total Funded Debt of the United States on which interest is payable in gold, on the 1st day of March, 1864, was $708,965,-000. The interest on this debt for the coming fiscal year will be $45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th 1864, has been so far at the rate of over 100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to $150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United State Treasury untill March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the

First National Bank of Pittsburgh,
Third National Bank of Pittsburgh,
AND BY ALL NATIONAL BANKS

which are depositaries of Public money, and all

RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agent of the National Depositary Banks,) will furnish further information on application and

TREASURY DEPARTMENT,
July 25, 1864.

To the People of the United States.

By an act of Congress, approved June 30, 1864, the Secretary of the Treasury is authorized to issue an amount not exceeding two hundred millions of dollars in Treasury notes, bearing interest at a rate not exceeding seven and three-tenths per centum, redeemable after three years from date, and to exchange the same for lawful money. The Secretary is further authorized to convert the same into bonds, bearing interest at a rate not exceeding six per centum, payable in coin. In pursuance of the authority thus conferred, I now offer to the people of the United States Treasury notes as described in my advertisement dated July 25, 1864.

The circumstances under which this loan is asked for, and your aid invoked, though differing widely from the existing state of affairs three years ago, are such as to afford equal encouragement and security. Time, while proving that the struggle for national unity was to exceed in duration and severity our worst anticipations, has tested the national strength, and developed the national resources, to an extent alike unexpected and remarkable, exciting equal astonishment at home and abroad. Three years of war have burdened you with a debt which but, three years since, would have seemed beyond your ability to meet. Yet the accumulated wealth and productive energies of the nation have proved to be so vast that it has been borne with comparative ease, and a peaceful future would hardly feel its weight. As a price paid for national existence, and the preservation of free institutions, it does not deserve a moment's consideration.

Thus far the war has been supported and carried on, as it only could have been, by a people resolved at whatever cost of blood and treasure, to transmit, unimpaired, to posterity, the system of free government bequeathed to them by the great men who framed it. This deliberate and patriotic resolve has developed a power surprising even to themselves. It has shown that in less than a century a nation has arisen, unsurpassed in vigor, and exhaustless in resources, able to conduct, through a series of years, war on its most gigantic scale, and finding itself, when near its close, almost unimpaired in all the material elements of power. It has, at the present moment, great armies in the field, facing an enemy apparently approaching a period of utter exhaustion, but still struggling with a force the greater approach of a final and fatal consummation. Such, in my deliberate judgment, is the present condition of the great contest for civil liberty in which you are now engaged.

Up to the present moment you have readily and cheerfully afforded the means necessary to support your government in this protracted struggle. It is your war. You proclaimed it, and you have sustained it against traitors everywhere, with a patriotic devotion unsurpassed in the world's history.

The securities offered are such as should command your ready confidence. Much effort has been made to shake public faith in our national credit, both at home and abroad. As yet we have asked no foreign aid. Calm and self-reliant, our own means have thus far proved adequate to our wants. They are yet ample to meet those of the present and the future. It still remains for a patriotic people to furnish the needful supply. The brave men who are fighting our battles by land and sea must be fed and clothed, munitions of war of all kinds must be furnished, or the war must end in defeat and disgrace. This is not the time for any lover of his country to inquire as to the state of the money market, or ask whether he can so invest his surplus capital as to yield him him a larger return. No return, no profit, can be desirable, if followed by national dissolution, or national disgrace. Present profit, thus required, is but the precursor of future and speedy destruction. No investment can be so surely profitable as that which tends to insure to national existence.

I am encouraged in the belief that by the recent legislation of Congress our finances may soon be placed upon a sounder and more stable footing. The present deranged condition of the currency is imputable, in a great degree, to disturbances arising from the withdrawal of necessary checks, often inevitable in time of war, when expenditures must largely exceed any possible supply of coin. The opportunities thus presented to acquire sudden wealth have led to vicious speculation, a consequent increase in prices and violent fluctuation. The remedy is to be found only in controlling the necessity which begets the evil. Hitherto we have felt the need of more extensive and vigorous taxation. Severe comment has been made upon what seemed to many an undue timidity and tardiness of action on the part of Congress, in this regard. I deem it but just to say that very great misapprehension has existed, and perhaps still exists, upon this point. Legislators, like all others, have much to learn in a new condition of affairs. An entirely new system was to be devised, and that system must necessarily be the growth of time and experience. It is not strange that first efforts should have proved imperfect and inadequate. To lay heavy burdens on a great and patriotic people in such a manner as to be equal, and as to occasion the least amount of suffering or annoyance, requires time and caution, and vast labor; and, with all these, experience is needful to test the value of the system, and correct its errors. Such has been the work which Congress was called upon to perform. I am happy to say that daily results are proving the [illegible] Revenue Act to exceed in efficiency [illegible] sanguine expectations of its [illegible] In the month of June, 1863, it [illegible] about four and one-half millions of [illegible] while the corresponding month of [illegible] year returned about fifteen millions under the same law. Under the new law, which went into operation on the first day of the present month, the Treasury will unfrequently receives one million a day.—As time and experience enable the officers employed in collecting the revenue to enforce the stringent provisions of the new law, I trust that a million per day will be found the rule and not the exception.—Still much space is undoubtedly left for improvement in the law, and its administration, as a greater amount of necessary information is acquired. The proper sources of revenue, and the most effective modes of obtaining it, are best developed in the execution of existing laws. And I have caused measures to be initiated which will, it is believed, enable Congress so to improve and enlarge the system as, when taken in connection with the revenue from customs, and other sources, to afford an ample and secure basis for the national credit. Only on such a basis, and in a steady and vigorous restraint upon currency, can remedy be found for existing evil. Such restraint can only be exercised when the government is furnished with means to provide for its necessities. But without the aid of a patriotic people, any goverment is powerless, for this or any other desireable end.

The denominations of notes proposed to be issued, ranging from fifty to five thousand dollars, place these securities within the reach of all who are disposed to aid their country. For their redemption the faith and honor and property of that country are solemnly pledged. A successful issue to this contest, now believed to be near at hand, will largely enhance their value to the holder; and peace once restored, all burdens can be lightly borne. He who selfishly withholds his aid in the hope of turning his available means to greater immediate profit, is speculating upon his country's misfortunes, and may find that what seems to be present gain leads only to future loss. I appeal, therefore, with confidence to a loyal and patriotic people, and invoke the efforts of all who love their country, and desire for it a glorious future, to aid their government in sustaining its credit, and placing their credit upon a stable foundation.

W. P. FESSENDEN,
Secretary of the Treasury.

Incidents near the [illegible]

[illegible] nies" swam the river and came into our lines. One of the boys asked him where he was going.

"Well," said Johnny, "General Hardee made us a speech a day or two ago, and told us to *strike* for our altars and our fires, and as my *fire* is in Tennessee, I'm striking for it across lots."

Another reb called to one of our men across the river:

"Yank, oh Yank! who is your commander?"

"General Sherman," says Yank; "what do you want to know for?"

"Oh, nothing," says Johnny, "only I think he must command us too, for whenever you get marching orders we get them too, with the difference that we have to go in advance."

Two corps crossed the river a few days ago. The rebs found it out, and called over to the pickets:

"Oh, Yank! we are coming over to give youens thunder to-morrow.—We've got forty thousand reinforcements."

"The mischief you have!" said Fed; "where did you get them?"

"Oh, they're some old Sherman sent over to us."

"Oh, yes, I think I see it."

I asked a rebel Major when he tho't the war would end.

"Well," says he, "I think it will end this fall."

"Why do you think so?"

"Well, you won't have anything to fight by that time if you keep on as you have done since May."

The rebel pickets asked our boys how long he thought the war would last.

"Oh, about twelve years,' says Fed. "Great Cæsar! ain't Vallandigham and them Copperheads up there going to help us any?"

Confession of a Copperhead.

Hon. James Brooks, editor of the New York *Express*, is one of the most ultra opponents of the Administration, and a Copperhead of the first water. In a letter from Washington to his paper, he says:

"Slavery carries with it its own own punishment. It is a dead drag to the body politic. It is impossible for any community to prosper with it on its bosom. The affliction bears as heavily upon the master as upon the slave. It endangers the peace and happiness of the master, and robs the slave of his freedom and his birthright. As to prosperity and accumulation of property, it keeps the master in the rear of others in a like situation exempt from this evil, and thus deprives him wher it depresses his servant. It is demonstrable, in my opinion, that that community of whites, taken as a whole, must be happier, more prosperous and richer, where slavery is prohibited, than where it is allowed."

☞ "Mister, I say, I suppose you don't want to hire nobody to do nothing, don't you?" The answer was, "Yes, I don't."

Governor Curtin's Message.

The extra session of the Pennsylvania Legislature met on Tuesday of last week. The Governor calls upon the Legislature to take some action for the defense of the State. The following is an abstract of the message:

After giving a detailed account of the late rebel invasion and the letter addressed to the Government by him and Governor Bradford, of Maryland, the Governor recommends as follows: In each of the three years, 1862, 1863 and 1864, it has been found necessary to call the State militia for the defence of the State, and this has been done with the assent and assistance of the General Government.—From the want of organization, we have been obliged to rely exclusively on the volunteer militia, and with few exception to organize them anew for each occasion. This has caused confusion and a loss of valuable time, and has resulted in sending to the field bodies of men in a great measure undisciplined. The militia bill passed at the last session is I think for ordinary times the best militia law we have ever had, but under the existing extraordinary circumstances it seems to require modifications.

I suggest that the assessors be directed to make an immediate enrollment, classifying the militia as may be thought best; that the officers be appointed by the Governor, on the recommendation, approved by him, of a board of examination, composed of three Major Generals for each division, of whom the Major General of the division shall be one, the other two to be designated by the Governor, from adjoining divisions, or in such other mode as the Legislature may see fit; that in all cases the officers shall be selected by preference from officers and men who have been in service, and have been honorably discharged by the United States, and that effectual provision be made for drafting the militia when required.—The recommendation in regard to appointments is made to avoid the angry dissensions, and, too often, political jealousies which divide military organizations by the election of officers, and to secure the services of the most deserving and competent men.

The election of officers in the volunteer forces in the field has been found to be injurious to the service [illegible] promotions [illegible] has produced harmony [illegible] privates [illegible] ed to faithfulness. In the enlistment of new organizations the plan adopted of granting authority to officers to recruit companies has been found to be the best policy. I also recommend that the Governor be authorized to form—either by the acceptance of volunteers or by draft in such parts of the State as he may deem expedient—a special corps of militia, to consist, in due proportion, of cavalry, artillery and infantry, to be kept up to the full number of fifteen regiments, to be styled "Minute Men," who shall be sworn and mustered into the service of the State for three years—who shall assemble for drill at such times and places as he may direct, who shall be clothed, armed and equipped by the State, and paid when assembled for drill or called into service, and who shall at all times be liable to be called into immediate service for the defence of the State independently of the remainder of the militia.

As this force would be subject to sudden calls, the larger part of it should be organized in the counties lying on our extreme border, and as the people of these counties have more personal interest in their protection, the recommendation is made to authorize the Governor to designate the parts of the State in which it should be raised, and to save the time and expense of transporting troops from remote parts of the State, and the subsistence and pay in going to and from the border. A body of men so organized, will, it is believed, be effective to prevent raids and incursions. The expenses of clothing, arming and equipping such a force cannot be correctly ascertained; but the Quartermaster General has been directed to make approximate estimates for your information, which will be independent of pay and subsistence.

The State should provide at least six four-gun batteries of field artillery with all the modern improvements—The suggestion has been frequently made by unreflecting persons that the State should raise a force and keep it permanently in the field for her defence. Apart from other considerations, it is to be observed that the expenses of such a measure would be quite beyond the present ability of the State. To raise and maintain an army of fifteen regiments would involve an annual expenditure of more than fifteen millions of dollars, and any smaller force would be inadequate. The plan which I have above proposed would, I think, give to the State efficient protection, and, if the Legislature would think fit to adopt it, the expense can be readily provided for by loan or otherwise.

Having an organized force under the control of the authorities of the State, and mustered into service for domestic protection, we would not, as heretofore, lose time in arranging for transportation and supplies with the National Government, when it became necessary to call it into the field.—When thoroughly organized, it should be in all its appointments an army which could be increased by draft made from our enrolled and classified citizens. The plan which I have above suggested is the result of reflection and experience which I have had during the last three years, and I have felt it to be my duty to submit it for your consideration. Of the purpose of providing for the effectual defence of the State, I, of course, cannot doubt your approval. If the Legislature should prefer the adoption of any other plan more efficient and economical than the one which I have herein proposed, it will give me pleasure to co-operate heartily in carrying it into effect.

The circumstances attending the last raid and the burning of Chambersburg will be fully discussed, while the mass of statistics which will accompany the message relating to the destruction of that borough, will constitute a most valuable adjunct to the history of the rebellion. The number of rebels who participated in that damnable work—the defenceless condition of the entire southern border of the State—the plunder and bloodshed to which our people have been subjected in that region, will also be adverted to—the whole forming a narrative of outrage such as no war has ever presented, and such as no people can peruse without emotions of indignation and horror.

An important feature of the message is the manner in which Governor Curtin refers to the taunts of our New York neighbors, and the frankness with which he reminds the people and authorities of that State that Pennsylvania is under no particular obligation to any of her sister commonwealths—that she has maintained her truth to herself, and her allegiance to the National Government at all hours and under all circumstances during the great peril in which the people of the American Union have been struggling. Pennsylvania has attempted, in no instance, to add to the embarrassment of the country, by appealing to the passions of the ignorant mobs to interfere with the laws of the land. Can the leaders of an opposing party or the authorities of New York, make a like truthful disclaimer? Pennsylvania has presented, as it were, the main barrier in the path of rebel efforts to invade the North. Her people have [illegible] her combined have not endured—losses for which they will never be indemnified, and for which they do not ask a return. But they have a right to expect that those who, like the people of New York, are perfectly safe as long as Pennsylvania maintains her front between them and the rebellion, should at least seal their lips in silence and retain their revilings for the common enemy of a common country.

The Curiosities of Insanity.

A man was arrested yesterday in an old rebel uniform, wandering about the streets. He was taken to the Reserve Corps room, Fifth and Chestnut, where the idea that he was a rebel was quickly dispelled by the discovery that he was insane.

"What's your name?" asked the officer.

"Almighty," was the reply.

"That's a queer name. What is your first name?"

"God."

"You have some other name, haven't you?"

"I have a thousand names, but I am God Almighty. I am a rebel general. I went into fifteen battles. Oh, I wasn't impressed, either. I own that I've fought against this country with good will all the time."

At this juncture the man was recognized as an inmate of the insane department of the Almshouse, who had escaped the day before. How he came to procure the tattered uniform of a rebel, is something for which it is hard to account. He looked weary and hungry. He was asked:

"Would you like to have some dinner?"

"No," was the reply. "I don't eat; haven't eaten anything for fifteen thousand years."

The wanderer was told that he would be sent back to the Almshouse.

"You'd better not do that," said he with menacing look. "There was an accident there the other day. That was the work of my vengeance. If you send me there again I'll open the heaven and thunder down the whole buildings. So beware!"

They locked him up, and last night reconveyed him to his old quarters.—This form of insanity is by no means uncommon. Some months ago there were four persons at the same time in the Almshouse who fancied themselves the Supreme being, and two women who claimed to be the Virgin Mary. What is also singular is, that these several aspirants for Divine power quarreled with each other when in juxtaposition, and ultimately their separation became necessary. The subject of this writing is a new comer at the institution.—*Phila. North American, 26th ult.*

WASHINGTON, 10:30, P. M.

MAJ. GEN. DIX: The following report of the success of our operations at Mobile, extracted from the Richmond *Enquirer* of this morning, has just been received by this Department from Maj. Gen. Butler.

MOBILE Aug. 8, Friday night.

Lieut. Col. Williams, commanding Fort Powell, evacuated and blew up the fort yesterday, and to-day the enemy are shelling Fort Gaines. The people of Mobile are ready for the fray. Great confidence prevails, and the people are satisfied with the conduct of Lieuts. Buchanan, Maury and Barnett, of the navy.

SECOND DISPATCH.

MOBILE, Aug. 8.—It is painfully humiliating to announce the shameful surrender of Fort Gaines at 9:30 o'clock this morning by Col. Chas. Anderson, of the 21st Alabama regiment. This powerful work was provisioned for six months and with a garrison of 600 men. He communicated with the enemy's fleet by flag of truce with the sanction of Gen. Page, who inquired by signal what his purpose was, but no answer. His attention was tracted by signal guns. Gen. Page repeatedly telegraphed "hold on to your fort." The same night he visited Fort Gaines, and found Anderson on board the Yankee fleet arranging terms of capitulation. He left peremptory orders for Anderson upon his return not to surrender the fort, and relieved him of his command.—Fort Morgan signalled this morning, but no answer was received except the hoisting of the Yankee flag over the ramparts of Fort Gaines. Col. Anderson's conduct is officially pronounced inexplicable and shameful.

E. M. STANTON,
Secretary of War.

The Navy Department to-night received a dispatch containing the following from the Richmond *Examiner* of the 9th:—A dispatch from Mobile, dated August 7th, two days later than our previous advices, states that the situation had not materially altered since the enemy's victory over our iron clads on last Friday. The Navy Department received a telegram yesterday morning announcing [illegible] which was not either sunk, in getting over the bar and reaching Mobile.

The Loyal League.

The act of the Loyal Leaguers of Baltimore, on the occasion of the recent rebel demonstration against that city, bears high testimony to the patriotism and efficiency of their organization. It is not impossible that the League of Baltimore rallied to the defense of that city saved it from attack and capture. At all event, the display of energy and zeal they made entitle them to the warm commendation of the loyal men of Baltimore, and the hearty approval of Union people everywhere.

The Union League of America is well understood to be a powerful association of men brought together in different localities, for the purpose of more efficient concert in support of the Government. It can in no proper sense be said to be a secret order, for its object is undisguised. Nor can it be charged with political aims, further than co-operating with the Government in subserving the policy which it adopts for its own preservation can be said to be political. The enlisting of men for the public service, the raising of funds for sick and wounded soldiers and for the maintenance of their families and in cases of of emergency, like that recently presented at Baltimore, the volunteering, *en masse* in an organized capacity to march to the point of danger and meet the enemies of the country, is a kind of service which cannot be offensive to any loyal man. It cannot be disparaged by charges of partizanship and the taunts of men who take a malicious pleasure in the work of misrepresentation. The record made by the Loyal League at Baltimore, the other day, is a most triumphant refutation of the multiplied slanders poured upon it from Copperhead sources.—*St. Louis Democrat.*

☞ The Richmond *Enquirer* states "on the indisputable testimony of an eye witness," that a tree, twenty-two inches through and sixty-one inches in circumference, was actually cut through by the concentrated fire of Minnie balls from our troops at the battle of Spottsylvania. The tree fell, it asserts, inside the rebel breastworks, where it was measured.

☞ "Jennie," said a venerable Cameronian to his daughter, who was asking his consent to accompany her urgent and favored suitor to the altar—"Jennie, it's a very solemn thing to get married." "I know it, father," replied the sensible damsel, "but it's a great deal solemner not to."

☞ A correspondent of the Albany *Argus*, writing from Dixie, says the only hope the Rebels now look forward to "is the election of a Democratic President." Who doubts it?

The Peace Party.

The so-called Democratic party is often called the peace party, and indeed the majority of the party assume and glory in the name. There is great danger of some being deceived by the name and be led to suppose it is really the party that will restore peace to the country. The country deserves peace. The men of all parties and of every political creed, long for the time to come when peace shall be restored to our distracted country. Any party that can guarantee this upon proper and honorable terms—and a lasting peace—ought to receive the unanimous support of the people. But we must not be deceived by false promises, or be betrayed by false colors. Is the copperhead, or so-called Democratic party, the true peace party? Do they seek or purpose terms of peace that will be acceptable and lasting? If so it should be sustained.

Let us look for a moment at the terms on which they propose to establish peace. First, a cessation of hostilities and withdrawal of our armies. For three years we have waged war with varied success. We have divided their territory by our fleets and armies, have captured their armies, cities, villages, blockaded their forts and destroyed their navy. We have conquered and hold nearly one-half the territory possessed by the South at the beginning of the rebellion, have severed their communications, destroyed their most important factories, and possess their best grazing and agricultural districts. The South is now destitute of the luxuries and partly of the conveniences of life—houseless and homeless, with poverty, famine and ruin staring them in the face, yet they still fight on.

We remember what they have suffered, and are yet suffering, their desolation, loss of homes, riches and loss of firesides, and yet we see with what desperation they fight. How can we expect they would listen to terms of peace on an any other conditions than independence, should we withdraw our armies. After years of bloody strife, we hold positions that render their complete subjugation only a matter of time. If we withdraw how shall we ever regain them? The idea of establishing peace in this way proposed, is simply preposterous.

Secondly they urge the appointment of peace commissioners, a guaranty of the rights of the South and slaveholding other and as a matter of course fall with it. Even were this not the case how often have the South assured us that they would listen to no terms of compromise, nothing but independence and recognition. Davis in his reply to Jaques said, unless this was done the war must go on until one party or the other was exterminated.

The so called peace party then cannot hope to effect the end sought, except by recognition. Is the country prepared for this? Is all the blood and and treasure thus far spent to be proclaimed useless, just when we are striking at the vitals of the confederacy and writhing in her death throes? Hundred of thousands have given their lives in the struggle to restore the Union, and establish the Government, and shall we now prove false to our trust, to our promises, and recreant to our duty and solemn obligations, when our prospects of success are growing brighter daily.—But passing this question of recognition without further argument, let us inquire whether even recognition will bring peace. Suppose we withdraw our armies and acknowledge the independence of the South, can we reasonably expect a permanent peace?—We think not. Questions of boundary will at once arise involving both parties.

Where shall the lines of demarkation be drawn? Shall we give up Kentucky, Tennessee and Missouri? They will be claimed, and unless they are given, war will be the consequence. The slaves that have escaped must be returned, and in case of refusal another cause of strife will be aggravated. Then we will have over sixteen hundred miles of boundry between the two nations to be guarded. We do not hesitate to say that it is an absolute impossibility for two nations to live in amicable relation with such extended lines and no national boundary.

Questions will daily arise between the Government and the citizens thereof, that will produce distrust, ill-feeling and finally war. We must return all their slaves that escape or they will plunder, sack and destroy along our boundary. Can we submit to or tolerate such demands and incursions? All this and much more we must expect. We say their recognition is impossible. None but traitors can or do advocate it, because it is a measure that must inevitably bring ruin upon the country. We warn our readers then to beware of those who are urging peace, upon such terms, who are crying peace, peace, when their is no peace. They speak the words of treason and conceal their treachery by such flattering and seductive promises. They come to you with treason in swaddling clothes. They are not willing to defend a common country, but seek to distract a struggling nation. There is no peace for us except by conquering a peace. We are in the midst of a war, and our only hope is in its successful prosecution and termination. Our only hope for peace is in the victories of the armies. The party that is the true party is the one that sustains the Government, that aids it in every way, filling up the armies and sustaining the hands of the Administration. We are seeking a permanent peace, and none other is worth seeking. When we have crushed out treason, vindicated law and restored the Government, then and not till then may we expect such a peace.

The Union party is the true party of the country, and we again warn our readers to beware of any other.—It is a snare conceived in treason and laid by traitors to deceive, and, if possible, to catch loyal men by false promises and names.

Destructive Fire.

On Wednesday night last, about 11 or 12 o'clock, a fire broke out Fallston, in this county, which proved to be very destructive. It originated, we are informed, from a heated gudgeon in the Keg Factory of M. T. Kennedy & Co. From that it extended to the Saw Mill of Stewart, Kennedy & Co. These two establishments, together with a large amount of lumber piled around, were entirely consumed. Several other buildings were destroyed by the devouring element, among which were Matthew Gilliland's former residence, with Store room; Kennedy & Duff's office; Wolcott's building, formerly used as a Cotton Factory; Kennedy & Stewart's Furniture establishment; Wm. Cannon's Hardware store; Mr. M'Caskey's and Mrs. Johnston's boarding houses. Several other buildings were also laid waste. The loss is variously estimated at from $50,000 to $100,000. It was with great exertion, favored by the shifting of the wind, that any portion of the town lying on the low ground was saved.

We learn that there was no insurance upon any part of the property burned. Some of the sufferers, we are told, are probably pecuniarily ruined.

The Burning of Chambersburg.

It would appear from a statement of Col. A. K. M'Clure, the editor of the Chambersburg *Repository*, that the rebel force under M'Causland and Johnson numbered 3,000, and that they planted two batteries to command the town and protect the 500 who plundered and burned the town. It is said that one women and two children were burned in their home. The loss is over *two million dollars*, and three thousand people are homeless and every way helpless, but they are provided for and cheered in their desolate condition by the generous contributions of friends. It also appears that Gen. Couch had just forty men within reach of Chambersburg subject to his orders. Averill was under orders from Hunter, and although urged by Gen. Couch to fall back from Greencastle to cover Chambersburg, was unable to do so in time. The people under all the circumstances, could not hope to save the town, even if they had made the most determined efforts, as they certainly could not resist this armed and well drilled horde of rebel vandals. They refused tribute, and preferred the torch, and made no effort to compromise with or raise a dollar for the rebels. Such appears to be the circumstances and facts surrounding the burning of Chambersburg, and the people of that town deserve the sympathy and assistance of a generous public.

☞We call the attention of our readers to the advertisement of S. H. Peirsol, sole agent for Beaver county for the sale of Wheeler & Wilson's Sewing Machines. We have fully tested it, and can bear testimony that it is emphatically the best machine now in use. For family sewing, braiding, hemming, felling, tucking, cording, quilting, gathering, binding, etc., it is not excelled. It is indeed a wonderful production, and for family use, especially, no other machine will bear comparison with it. The beauty and simplicity of its mechanism are admirable; its principle is perfect. Every family should at once secure one of Wheeler & Wilson's Sewing Machines. Try it, and you will never agree to do without one. Apply to S. H. Peirsol, Beaver.

PROVOST MARSHAL'S OFFICE, 24TH DISTRICT, PENN'A.—New Brighton, Aug. 12th, 1864.

All inquiries on ordinary subjects with the *Enrolment, Draft, Exemptions, Liabilities to Draft, Credits and Accounts of men furnished*, should be addressed to the Provost Marshal of the proper District, who, if not able to answer them, will seek information from the Provost Marshal General of the State. Answers may thus be obtained more promptly than by addressing the Provost Marshal General at Washington, where more important business often prevents prompt answers to the multitude of inquiries now addressed to the Bureau in consequence.

Substitutes cannot be accepted, or any man under Circular 230, who leaves his Enrollment District *for the purpose* of presenting a substitute to Boards of other Districts, or who authorizes Brokers or others to transact such business for him.

Threatened Disturbance in Indiana.

The desperate bands of rebel bush whackers who infest Kentucky, threaten to cross over into Indiana where it is alleged the "Sons of Liberty" are ready in large numbers to join them. The low Stage of the water in the river is extremely favorable for crossing for the distance of fifty miles. In view of this the entire shore has been picketed, and Gov. Morton has called for force to protect the State. It is understood that several new boats, drawing not to exceed sixteen inches of water, have been fitting out lately here and elsewhere, to patrol the river. They will be armed and supplied with a force suitably protected. Evidence carefully collected goes to show that the copperhead elements throughout the Northwest are acting in concert.—Lately the rebel prisoners at Camp Morton have become restive and taken to tunneling again. Five tunnels have been discovered during the past week, one of them over forty feet in length. It was nearly completed when found out. Some of the prisoners who have been amusing themselves by throwing stones at the guards, were fired on, and two of them severely wounded.

We have reason to believe that the Government has adopted suitable measures to quell any disturbance and defeat any mischief that may be on foot.—*Pitts. Com.*

"THE REPUBLIC OF JONES."—The Natchez Courier of the 12th ultimo gives an account of a curious "Republic" which was organized in Jones county, Mississippi, a year or so ago. It appears that numbers of rebel deserters having congregated in the swamps of that county, determined to form a government for themselves. A rebel Colonel Mowry, with a considerable force, was sent to disband them, and it was supposed had succeeded; but it now appears that the malcontents offered a desperate resistance, dispersing the assailants, killing and wounding and capturing a considerable portion of them. At last accounts the "Republic" was still in the enjoyment of health and strength, and determined to resist to the death any encroachments of the Confederacy. It is not likely, however, that the "Republic" will long survive. The Confederates, unless speedily driven from Mississippi, will absorb it; and if they do not, another authority will.

U.S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864, with semi-annual interest at the rate of 7 3-10ths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect.—They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent., which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

Special Advantages of this Loan.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interes than any other, and *the best security.* Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it *can not* pay in anything better, for its own assets are either in government securities or in notes or bonds payable in government money.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated interested, and are the best security with banks as collaterals for discounts.

Convertible into a Six per cent. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation.

But aside from all the advantages we have enumerated, a special Act of Congress *exempts all bonds and Treasury notes from local taxation.* On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, the faith of ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole discharge of all the obligations of the United States.

While the government offers the most liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people.

Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the *original* certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the

First National Bank of Pittsburgh,
Third National Bank of Pittsburgh,
AND BY ALL NATIONAL BANKS

which are depositaries of Public money, and all

RESPECTABLE BANKS AND BANKERS throughout the country will give further information and

Afford Every Facility to Subscribers.

WHEELER & WILSON'S SEWING MACHINES.

The Best, Most Reliable Sewing Machine Now in Use!

These Machines make the lock-stich alike on both sides, and use less than half the thread and silks that the single or double thread loop-stitch Machines do. It will Stitch, Hem, Fell, Quilt, Tuck, Plait, Gather, Cord, Braid, etc., all without previous basting; and are better adapted than any other Sewing Machine in use to the frequent changes and great variety of sewing required in a family; or they will sew from one to twenty thicknesses of Marseilles without stopping, and make every stitch perfect, or from the finest gauze to the heaviest beaver cloth, without changing the feed, needle or tension, or making any adjustment of maching whatever!

It has the *following* advantages over *all other machines:*

Far greater variety of work; beauty and excellence of stitch; speed and quietness of motion; simplicity of construction; ease and management; elegance of design and finish.

These are peculiar facts, and will go far to determine the choice of an intelligent buyer.

SHERIFF'S OFFICE,
Beaver, aug. 17, 64.

PLASTER OF PARIS for sale at the Bridgewater Drug Store.

Gen. Sheridan's Success.

NEW YORK, Aug. 14.

The *Commercial's* Washington special says: There is positive and reliable information in the city to the effect that Gen. Sheridan has defeated Early in every encounter, and that the latter is retreating down the valley, closely pursued by our cavalry and infantry.

NEW YORK, Aug. 14.

The *Herald* Harper's Ferry correspondence of the 13th says:—Sheridan advanced by way of Charlestown and Berryville to Winchester. Our cavalry had some skirmishing with the enemy at various points between Berryville and Winchester. They came upon a party of some fifty rebels engaged in threshing grain, and surprised and captured the entire squad. Early was completely surprised by approach of our army, and made but slight resistance. He found his position flanked by Sheridan's manœuvres and fell back during the night, having attempted an artillery duel this afternoon. Our latest information is to the effect that Sheridan passed through Winchester yesterday morning. No details of our losses received. Some fifteen or twenty killed and wounded. The latter are in the hospital at Berryville.

THE REPULSE AT PETERSBURG.—The New York *Post* concludes an article thus:

"At the same time, it remains to be said that Grant probably could not have gained the information concerning the nature of the enemy's works which he needed in any other way than by an assault. What we have endeavored to make plain to the reader is, that the failure of an assault on works of the strength of those at Petersburg is not an uncommon incident in a siege; that it is not decisive against Grant at all; that he maintains over the enemy the same moral and physical superiority that he acquired over them at Spottsylvania Court House; and that, as Lee has never since that day dared to assume the offensive against Grant, so he is in no better position to do this now than he was before the assault."

The Petersburg Disaster

WASHINGTON, August 12.—The National Republican of this evening says that General Burnside appeared before the Military Commission in session at City Point on Wednesday, and gave a statement of the circumstances connected with the recent assault upon Petersburg.

General Burnside insists that the orders given him were carried out faithfully, and that neither himself nor the officers of his corps are responsible for the failure.

A correspondent (G. W. B.) in the New York *Evening Post* says: "In conversation with a naval officer who has made his mark while commanding a Monitor, I asked, "Why do you not take Charleston?" "That we could, but what is the use of so doing unless we have troops to hold it *after it is taken?*" Some of our Monitors may be blown up by torpedoes in going there, but that is a risk we are willing to take when we have military cooperation. You know that the Monitors cannot take troops, as there is no room for them."

The first two articles of the Constitution adopted by the Constitutional Convention of Louisiana, and to be submitted to the people, are as follows:

ART. 1. Slavery and involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, are hereby forever abolished and prohibited throughout the State.

ART. 2. The Legislature shall make no law recognizing the right of property in man.

The "Copsi" are making a great boy about the size of the M'Clellan meeting held in New York city. We don't see that it is much to blow about. It was a big meeting. It will be recollected that the traitor Breckenridge had a majority of *forty thousand* in New York city at the last Presidential election, and no one doubts but what Jeff. Davis would receive more votes there than Abraham Lincoln would. New York city is a nest of traitors, and not much to brag on, and so is McClellan no good.

The Chicago *Post* (Democrat) thinks the indications are daily growing that Millard Fillmore will be the nominee of the National Democratic Convention for President."—Judge Nelson is understood to be the favorite of the Albany Regency, Pendleton of Ohio is warmly supported, but McClellan has the most surface strength.

GONE HOME IN THE MORNING.—CHARLIE CLARK died on Sabbath morning, 7th inst., aged 16 months.

"Another little voice is hushed,
A little spirit gone;
Another little form's asleep
And a little angel born."

Life is a scene of disappointment.—A record of perished hopes and vanished desires, of plans frustrated and aims that are unattained makes up the history of a life. From all these disappointments, dear little Charlie is forever free. It was on the morning of an *earthly* Sabbath that he was taken up to that Heaven, which *these* Sabbaths' glorious antitype—there to rest with God. And, before he had learned to feel the disappointments of life, was he taken to the full fruition of enduring happiness. We mourn him because he was the household pet—we rejoice that he is now one of Heaven's angels.

DESPAIR OF THE SOUTH CAROLINIANS:—One of the national officers just released from confinement in Charleston city reports that no one can imagine how utterly used up and hopeless the rebellion is who has not spent, as he has done some months in its very cradle. The sufferings of the people are beyond belief, and, whatever their northern sympathizers may think or pretend to think, they themselves are in the lowest abyss of despair, and utterly infuriate against the Richmond tyranny under which they groan. They are in want of the necessaries of life, and there is not an able-bodied man or boy in all South Carolina who has not been ruthlessly conscripted.

NEW BRIGHTON RETREAT.

AN ASYLUM FOR THE RECEPTION, CURE AND TREATMENT OF MENTAL ALIENATION OR DISORDER,

And Other

Nervous and Chronic Diseases,

EXCLUSIVELY FOR FEMALES.

Information for every body free of charge.

THIS institution is now open for the reception, care, and treatment of the *independent class* of patients who are laboring under mental derangement, or other nervous and chronic disease. We make special mention of nervous and chronic diseases, from the fact that seven tenths of the female patients that are committed to our public Asylums, to be treated for disordered minds, are reduced to that lamentable condition through previous physical disorder. By a well timed and judicious treatment of chronic and nervous diseases, all physical disorders, in the majority of cases may be removed; and thus the mind, having suffered through the medium of the body, will when free from the exciting physical cause, throw off the shackles that has bound it to worse than midnight darkness, and reason will, once more, resume its sway, clothed in all its primitive beauty and wonted excellence. Hence the necessity of all those, who are laboring under the predisposing or exciting causes, calculated in the end to impair the mind to resort to an early and judicious course of remedial agents.

The Institution is a large brick building with a stone basement—four stories high and well ventilated. It is situated on an elevated table land which commands a view of entire town—adjacent hills—groves and neighboring streams; all of which are calculated to produce favorable impressions upon the disordered mind.

The Institution is complete in all of its appointments. Having been tastefully fitted up at great expense, in order that it may meet the approbation and views of the most fastidious.

The water closets and bathing apparatus have been gotton up upon the most approved modern scientific principles. This department embraces not only the ordinary baths but, also, the medicated, warm air and ascending and descending *douche* for the more effectual and successful treatment of cutaneous and other scrofulous diseases.

We beg leave to say to all those who may be disposed to commit the interests of a dear wife, sister or daughter, to our charge—may be assured that no means will be spared or efforts wanting on our part to ameliorate their condition or to effect a restoration to their accustomed health and vigor of mind.

For further particulars send for a circular. All communications should be addressed to

PLASTER OF PARIS for sale at the Bridgewater Drug Store.

WABBER, WRINGER and STARCHER Combined! Silver and Bronze Medals, Diplomas, Certificates, Premiums, and Testimonials, have been received from various sources, both Public and Private.

Self-Adjusting and Adjustable. The only Wringer with the Patent Cog-Wheel Regulator, for turning both rolls together and which positively prevents the rolls from breaking or twisting on the shaft. It is not only a perfect Wringer, but the Cog-wheels give it a power which renders it a most Excellent Washer, pressing and separating, as it does, the dirt with the water from the clothes, leaving them dryer, whiter, and smoother than when "wrung" by hand. The water can be pressed from large and small articles, easier, quicker, and more thoroughly than by the ordinary, old-fashioned back-breaking, wrist-straining, and clothes destroying process. The Cog-wheels prevent all "wear and tear" of clothes by the friction of the rolls or breaking of stitches by twisting.

Without Cog-wheels, the whole strain of forcing the cloth through the Machine is put upon the lower roll, and the cloth is made to act in the place of Cog-wheels, to drive the upper roll, causing a much greater strain upon the lower roll than when Cog-wheels, with our Patent Regulator, are used, besides the extra strain upon the cloth. A Good Canvasser wanted in every town. Liberal inducements offered, and exclusive sale guaranteed.

ITS loves and hates, sorrows and angers, hopes and fears, regrets and joys; MANHOOD, how lost, how restored; the nature, treatment and radical cure of spermatorrhœa or seminal weakness; involuntary emissions, sexual debility and impediments to marriage generally; nervousness, consumption, fits, mental and physical incapacity, resulting from SELF-ABUSE—are fully explained in the MARRIAGE GUIDE, by WM. YOUNG, M. D. This most extraordinary book should be in the hands of every young person contemplating marriage, and every man or woman who desires to limit the number of their offspring to their circumstances. Every pain, disease and ache incidental to youth, maturity and old age, is fully explained; every particle of knowledge that should be known is here given. It is full of engravings. In fact, it discloses secrets that every one should know; still it is a book that must be locked up, and not lie about the house. FRIENDS AND RELATIVES
OF THE
BRAVE SOLDIERS AND SAILORS,

HOLLOWAY'S PILLS
And Ointment.

ALL WHO have Friends and Relatives in the Army or Navy, should take especial care that they be amply supplied with those Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

COUGHS AND COLDS AFFECTING TROOPS

Will be speedily removed and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Box or Pot.

SICK HEADACHES AND WANT OF APPETITE INCIDENTAL TO SOLDIERS.

These feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthful action of the liver and stomach. These organs must be relieved, if you desire to be well. The Pills, taking according to the printed instructions, will quickly a produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

WEAKNESS OR DEBILITY INDUCED BY OVER FATIGUE,

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

VOLUNTEERS ATTENTION! INDISCRETIONS OF YOUTH.

Sores and Ulcers, Blotchings and Swellings, can with certainty be radically cured if the Pills are taken night and morning, and the ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the humors from the system and leave the Patient a vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

FOR WOUNDS EITHER OCCASIONED BY THE BAYONET, OR SABRE OR THE BULLET, SORES OR BRUISES,

To which every Soldier and Sailor are liable there are no medicines so safe, sure and convenient as Holloway's Pills and ointment. The poor wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all around it, then covered with a piece of linen from his knapsack, and compressed with a handkerchief. Taking night and morning 6 or 8 Pills, to cool the system and prevent inflamation.

Every Soldier's knapsack and Seaman's chest should be provided with these valuable Remedies

CAUTION.—None are genuine unless the words "*Holloway, New York and London,*" are discernable as a water-mark in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

☞ Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicines, throughout the civilized world, in boxes at 25 cents, 62 cents and $1 each.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

NOW.

Are Dr. Hurd's Preparation Good?

The best evidences that they are is, that their firmest friends and best patrons are those who have used them longest. *Dr. Wm. B. Hurd* is an eminent Dentist of Brooklyn, Treasurer of the New York State Dentists' Association, and these preparations have been used in his private practice for years, and no leading citizen of Brooklyn or Williamsburg questions their excellence, while eminent Dentists of New York recommend them as the best known to the profession. Without the aid of advertising, dealers have sold them by the gross.

The Editor of the *Brooklyn Daily Times* says, "We are happy to know that our friend, Dr. Hurd, is succeeding beyond all expectations with his MOUTH WASH and TOOTH POWDER. The great secret of his success rests with the fact *that his articles are precisely what they are represented to be, as we can testify from their long use.*"

The well known P. T. Barnum writes: "I found your TOOTH POWDER so good that my family have used it all up. *We find it the best powder for the teeth we have ever used.* I shall feel obliged if you will send me another supply at the Museum at your convenience, with bill."

But their cost is so small that every one may test the matter for himself.

☞ Beware of the ordinary Tooth Powders. Dr. Hurd's Tooth Pooder contains no acids, nor alkali, nor charcoal, and polishes without wearing the enamel. Use no other.

WHAT WILL DR. HURD'S REMEDIES EFFECT?

Dr. Hurd's Mouth Wash and Tooth Powder will give young ladies that finest charm in woman—a sweet breath and pearly teeth. Try them, ladies.

Dr. Hurd's Mouth Wash and Tooth Powder will cleanse the mouth from all foul exhalations, and if used in the morning, will make the breakfast taste sweeter and the day begin more pleasantly. Hundreds of persons can testify to this. Try them, gentlemen.

Dr. Hurd's Mouth Wash and Tooth Powder are the the best preparations in the world for curing *bad breath* and giving firmness and health to the gums. Hundreds of cases of *Diseased Bleeding Gums, Sore Mouth, Canker*, etc., have been cured by Dr. Hurd's astringent wash.

Dr. Hurd's Mouth Wash and Tooth Powder give an additional charm to courtship, and make husbands more agreeable to their wives and wives to their husbands. They should be used by every person having

ARTIFICIAL TEETH,

which are liable to impart a taint to the mouth

Dr. Hurd's Toothache Droops cure Toothache arising from exposed nerves, and are the best friends that parents can have in the house to save their children from torture and themselves from loss of sleep and sympathetic suffering.

Farmers and mechanics! you cannot well afford to neglect your teeth. For a trifling sume you can now get preservatives, than which Rothschild or Astor can get nothing better. Remember that *Dyspepsia and Consumption of the Lungs* often originate in neglect of Teeth. Send for the *Treatise on Teeth*, and read Dr. Fitch's observations on this subject. If too late to arrest decay in your own teeth, save your children's teeth.

NEURALGIA PLASTERS.—Dr. Hurd's Neuralgia Non-Adhesive Plasters are the most pleasant and successful remedies ever prescribed for this painful disease. The patient applies one, soon becomes drowsy, falls asleep, and awakes free from pain, and no blister or other unpleasant or injurious consequences ensue. For *Earache* and *Nervous Headache*, apply according to directions, and relief will surely follow. Nothing can be obtained equal to Dr. Hurd's Compress for Neuralgia. Try them. They are entirely a novel, curious and original preparation, and wonderfully successful. They are of two sizes, one small, for the face, price 15 cents, and the other large, for application to the body, price 87 cents. *Will be mailed on receipt of price and one stamp.*

WHAT ARE THE PEOPLE DOING?

The American people are intelligent enough to appreciate preparations that contribute so much to happiness of those using them, and they wont them. Every mail brings us letters, some ordering the Treatise on Teeth, some the Neuralgia Plasters, and not a few enclosing 37 cts. for the Mouth Wash, to be sent by mail; but to these we are compelled to reply that it is impossible to send a half-pint bottle by mail. The people want these Remedies. *Who will supply them?*

Now is the

CHANCE FOR AGENTS

Shrewd agents can make a small fortune in carrying these articles around to families. The Dental Treasury is the neatest article that a man or woman can carry around. Send for one and see, or, better, a dozen, which we will sell, as samples, for $7. Agents supplied liberally with circulars. ☞ Now is the time to to go into the business, to do good, and make a profit. We are spending thousands for the benefit of agents. New England men or women! here is something nice, and a chance to take the tide at its flood. Address,

WM. B. HURD & CO.,
